Subject: Allerston and Wilton

The Parish councillors for Allerston and Wilton have considered the sites on this document and their opinion is that Allerston and Wilton are totally unsuitable for the number and sizes of the sites identified for building. There are no services in either village apart from an hourly bus on the A170. The local school would not be able to cope with any increase of this size. There is no Social Infrastructure to support the number of sites proposed.

The majority of Allerston has a private water supply and this supply is unable to support any more houses. The villages of Allerston and Wilton could only support very small developments of housing for local people preferably with some lower cost for younger local residents.

Lesley Myers
Clerk to Allerston and Wilton Parish Council
