To Rachel Bulmer, Planning Officer

I wish to make the following comments

Site 478 The access to this site is via a single track PRIVATE road leading to two residential properties with no possibility of it being widened. Sites 178 478 537 538 566 would have their access onto East Street of which the majority is not wide enough for two vehicles. In addition this is a bus route. The ideal site in Swinton would be 341 which adjoins the last Swinton development called Meadowfield Close. I was told at a meeting of Swinton and Amotherby Parish Councils that this site was not acceptable as it was too close to the scrapyard. Why allow Meadowfield which is actually nearer the scrapyard? The scrapyard has been operating for over sixty years, it hasn't arrived since Meadowfield was built. Daphne Powell Sent from my iPad
