Subject: Planning in Gilling East

Dear Mrs Balmer,

I have recently received your letter dated October30th re:- Sites Consultation- Local Plan Sites Document.

I do not understand your legal jargon. Please can you advise me as to whether the council intend to build in Gilling East on Site Nos. 107, 316, 317, 35, 36, 44, and 546.

I am very concerned if the answer is yes, as the land has extremely poor drainage and is on a flood plane, and any further building in this area will create serious potential to flooding. The site does not provide good access onto the main road and there is no local infrastructure.

Please do set my mind at rest.

Very many thanks.

Mrs Linda Dyson.
