Dear Sir/Madam,

I have just discovered that there is a proposal to use the fields behind my house as a residential building area (Slingsby Site 428). I only moved here in August 2015 and my main reason for purchasing this house is because it was not hemmed in on all sides.

The proposed development will come right up to my back fence and I for one will oppose that vehemently.

I am also curious to know why in the survey done less than a year ago (June/July 2015) the solicitors survey stated that there were no plans to build in this area and this was a major factor in my buying this property.

This may smack of NIMBYism, but if I'd wanted to have houses all around me I would have stayed in Malton whence I moved.

Chris Cooper
