Subject: Great Edstone site 472

Dear Sirs

Great Edstone site 472 – Development limit alteration

The site is immediately to the south of the Saxon St Michael's Church, one of the charms of which is the uninterrupted view from the church southwards to the Howardian Hills: development on the proposed site would seriously interfere with this view. Additionally development on the proposed site would impinge on the view of the church when approaching Great Edstone from the south along Salton Lane.

Your faithfully

Simon Cooper
