I wish to object to the V.I.U.A.
designation of Plot 85, Low Street, Thornton-Le-Clay.

This is a small area, bordered on three
sides by dwellings with a 15 metre road frontage.

This site is not viewed when approaching
the village and is only viewed when passing
adjacent to it and as such makes no contribution
to the character or form of the village.

The site is of no historical nor archaeological
interest, nor is it near any such site or building.

In all this site does not fit any of the
criteria listed as used to identify V.I.U.A.s

Yours faithfully

D. ACOE.
