If you wish to support the legal compliance or soundness of the document or its compliance with the duty to co-operate, please use this box to set out your comments.

The supporting paragraphs quoted above all effectively emphasise that the Publication Draft needs to make proposals and allocate sites for the quantum of development identified as being required to 2027 to meet the various needs of the District, notably those identified in the Local Plan Strategy.

However, neither the document itself nor the supporting evidence base are considered to set out information which is required to confirm that delivery can and will take place. In the absence of this certainty the requirements the Draft Plan itself sets out cannot be guaranteed.

6. Please set out what modification(s) you consider necessary to make the document legally compliant or sound, having regard to the matter you have identified at question 5 above where this relates to soundness. (NB Please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the document legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

In order to make the Plan sound in this regard, evidence needs to be produced which can be tested to demonstrate that delivery can be achieved as required by the Plan Strategy and identified as the key objective of the Publication Draft.

Please Note: Your representation should cover succinctly all the information, evidence and supporting information necessary to support / justify the representation and the suggested modification as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he / she identifies for Examination.

7. If your representation is seeking a change, do you consider it necessary to participate at the oral part of the Examination?

No
I do not wish to participate at the oral part of the Examination

8. If you wish to participate at the oral part of the Examination, please outline why you consider this to be necessary:

On the basis that additional evidence on delivery is produced we consider it essential that this is properly and commercially tested.
