

Thank you for consulting SBC on the emerging Local Plan document.

I can confirm that no comments are proposed and support is given for taking forward this latest document that sets out allocations to meet, amongst other things, the housing numbers proposed in the adopted Core Strategy.

I am content that as a neighbouring authority we have been suitably involved in the preparation of this and other local plan documents through consultation and the opportunity to meet with officers both individually and as a wider group through such fora as the North Yorkshire Development Plans Forum.

I trust this is satisfactory but if you need any further assistance or response then please let me know.

Kind Regards

**Steve Wilson**
